International Journal of coal geology

Contents Volume 32, 1996

Introduction 1
Electron-probe microanalysis of light elements in coal and other kerogen
R.M. Bustin, M. Mastalerz and M. Raudsepp 5
Modes of occurrence of trace elements in coal from XAFS spectroscopy
F.E. Huggins and G.P. Huffman 31
Application of reflectance micro-Fourier Transform infrared analysis to the study of coal macerals: an example from the Late Jurassic to Early Cretaceous coals of the Mist Mountain Formation, British Columbia, Canada
M. Mastalerz and R.M. Bustin 55
The application of soft X-ray microscopy to the in-situ analysis of sporinite in coal
G.D. Cody, R.E. Botto, H. Ade and S. Wirick 69
Surface chemical analysis in coal preparation research: complementary information from XPS and ToF-SIMS
A.N. Buckley and R.N. Lamb 87
Sulphur characterization in coal from X-ray absorption near edge spectroscopy
M. Kasrai, J.R. Brown, G.M. Bancroft, Z. Yin and K.H. Tan 107
Porphyrins in coal
R. Bonnett 137
Selected elements in major minerals from bituminous coal as determined by INAA: implications for removing environmentally sensitive elements from coal
C.A. Palmer and P.C. Lyons 151
Diffusion of pyridine in Illinois No. 6 coal: measuring the swelling and deswelling characteristics by combined methods of nuclear magnetic resonance (NMR) and nuclear magnetic resonance imaging (NMRI)
L. Hou, P.G. Hatcher and R.E. Botto 167
Stable isotope geochemistry of coals, humic kerogens and related natural gases
M.J. Whiticar 191
Characterization of peatified and coalified wood by tetramethylammonium hydroxide (TMAH) thermochemolysis
D.E. McKinney and P.G. Hatcher 217
Characterisation of brown coal humic acids and modified humic acids using pyrolysis gcms and other techniques
W.R. Jackson, G.D. Bongers, P.J. Redlich, G. Favas, Y. Fei, A.F. Patti and R.B. Johns 229
Development of techniques for monitoring gas-phase sodium species formed during coal combustion and gasification
B.L. Chadwick, R.A. Ashman, A. Campisi, G.J. Crofts, P.D. Godfrey, P.G. Griffin, A.L. Ottrey and R.J.S. Morrison 241
A solid-state ^{15}N NMR spectroscopic investigation of the origin of nitrogen structures in coal
H. Knicker, P.G. Hatcher and A.W. Scaroni 255
Mineralogical speciation of elements in an eastern Canadian feed coal and their combustion residues from a Canadian power plant
P.K. Mukhopadhyay, G. Lajeunesse and A.L. Crandlemire 279
